Ce film est superbe et je le conseille a tous les fans en meme les non-fans de l'univers du Krosmoz!

10V10

This film is superb and I recommend it to all fans even the non-fans of the universe of Krosmoz!

10V10. OMG THAT WAS VERY NICE!

Is there any other thing ?

Is that all the story ?

But it worth it.

6V10. good back story. An uplifting story about a quirky clockmaker and his silly antics. Fun for the whole family.. I've never watched the 'main' Wakfu show, so I have no idea who this Nox guy is to them.

But I'm a fan of Masaaki Yuasa, Eungyoung Choi and Michio Mihara, which brought me to watching this short of theirs a few years ago and be mesmerized by it.

All I can say is, at barely half a buck for 20+ minutes of pure visual madness in 1080p, it was a mandatory purchase for me.

Plus-- trading cards. Even cheaper then.

And watch Kaiba! Absolutely funtastic show from the same staff!

And Mindgame! The movie that started it all!. nice video not there best but was good had no problem in stream at all. Good story. If you have seen the series then it's an interesting episode to watch in order to see Nox's backstory. If you've not seen it, then there's no good reason to watch this.

Unfortunately, the quality isn't as good as the series that it spawned from nor even as good as the next special along (Ogrest). The animation, sound (perhaps just English) and art felt more rushed that alternative. I can forgive the art style for being different but the animation and sound are just poor. Voice acting is fine though, just a shame the lips aren't usually sync'd up properly.

Essentially, if you want to see Nox's backstory then it's worth a go but don't expect anything of high quality.. The backstory of one of the coolest villains I know, do wish it'd been animated in the same style as the regular Wakfu episodes though.. I have watched the Wakfu show and asked myself how a person became Nox, now I know. The style in this video is different then the original show but it is before Yugo.. This is the story about the origin of the Wakfu S1 villian, Nox. As a fan of the cartoon, this is a must.

I do highly recommend to watch the series first before buying this. My only complain is that it was too short (22 min). I wish it would have been at least an hour.

An uplifting story about a quirky clockmaker and his silly antics. Fun for the whole family.. The video is great, but the english dub sucks. Switch it to french and use the subtitles.

Also the french dub was a bit out of sync, dunno if that was a problem on my end.

One annoying thing is that this is a stream. FullHD with 100mbit internet connection still buffering every 5 minutes.

The video itself is around 20 minutes. You'll notice that the writers didn't have had that much time to tell the backstory of Nox. Yet the end of this video really makes up for this. :-)

I followed the Wakfu series a little bit, but I didn't see everything since it was on TV. Still I enjoyed the video.

For someone who doesn't know at all about Wakfu, this video might be your start into the Wakfu world.

I always thought Nox was cool. :-P. nice video not there best but was good had no problem in stream at all. Heartbreaking episode of a underrated as hell show, just don't watch it in English. Watch it with the original French with English Subtitles..

The english dub is pretty disappointing, but the story is great. I'm actually kinda surprised. The dubs of the special episodes were really good, and the regular seasons were solid, even the Ocrest episode is good, but the audio timing on this episode is off, and the mixing drowns out much of the background audio. Try to watch it in French with subtitles if you're interested.. The backstory of one of the coolest villains I know, do wish it'd been animated in the same style as the regular Wakfu episodes though.. I've never watched the 'main' Wakfu show, so I have no idea who this Nox guy is to them.

But I'm a fan of Masaaki Yuasa, Eungyoung Choi and Michio Mihara, which brought me to watching this short of theirs a few years ago and be mesmerized by it.
